## President's Trophy Schedule II

### Existing

President's Trophy is currently played as a Mixed Doubles at Lakeland Florida P10. This is the only tournament scheduled. There is no P10 A and P10 B.

### Proposed Change

Institute Lakeland as a P10 A to a Men's/Ladies tournament. The President's Trophy tournament would be P10 B on the same date. The President's Trophy tournament location would rotate each year to club locations with 30 or more shuffleboard courts. When the rotation would be rotated back to Lakeland, there would only be one tournament P10.

### Rationale

Rotating the Redline President's Trophy would fall in line with the rotation of the Redline Singles, Doubles and TOC. The purpose of the rotation is to afford every shuffleboard player the opportunity to play this tournament in a District closer to their home location on various years. By having the President's Trophy as a P10 B (Other than when the location is Lakeland) would afford every shuffleboard player an option to attend the Mixed Doubles President's Trophy tournament at it's rotating location, OR, play P10A at Lakeland. By leaving this the President's Trophy tournament only at Lakeland gives an unfair advantage to the District shuffleboard players that play at the Lakeland courts. This 10 day proposal is a compromise to keep the tournament in Lakeland AND rotate the President's Trophy tournament. We currently have a rotating Singles, Doubles and TOC and it's only fair to rotate the President's Trophy Mixed Doubles for ALL shuffleboard players.

Respectfully Submitted

David P Kudro FSA Past President.
